Job Purpose

As a Post Graduate Diploma (PGDip) trainee, the post holder will deliver evidence based, client centred care to children and young people with mental health problems within the THRIVE Framework for service delivery and in line with their training programme.

The post holder will work under supervision whilst undertaking their PGDip. with the CYPPT Psychological Therapies Training Centre. The training post will equip the post-holder to provide interventions for children, young people or families referred to the service, using the core principles of CYPPT practice along with an evidence-based intervention consistent with the course they are attending.

The post- holder will attend all taught and self-study days required by the education provider, as specified within the CYPPT curriculum and work in the service for the remaining days of the week using their newly developed skills.

The post holder will work with people with different cultural backgrounds and ages, using interpreters when necessary and should be committed to equal opportunities.

As the post is identified within the CYPMH strategy, it is expected the role will continue to develop in line with national and local initiatives.

The post holder will demonstrate an attitude which respects and values service users' and their carers.

The post holder will embrace the core values of the organisation and adopt the principles of THRIVE.
